

# About Us.

## Industry-Proven Products.

### Industry-Leading Design Solutions.

*Since our formation in 1999, we have continued to develop our expertise as an Ag-Infrastructure Provider. We supply and service products for: Feed Milling, Swine Production, Poultry Production, Grain Handling, Fertilizer Facilities, Agricultural Buildings, Industrial Buildings and Design-Build / Project Management Services.*

*At our core, we are a retail company with an overriding commitment to deliver quality and service. We see every project as an opportunity to bring people together. Our considerable experience supports the practical solutions we bring to equipment specifications, facilities design, project management and construction methods.*

*Both our employees and our customers know what our company stands for, what we believe in and why we do what we do. All our employees understand how they contribute to the company's long-term vision for success. They have a clear understanding of our company's daily purpose.*

*We continuously develop clearly-defined quality standards that every employee understands. We know the expectations of our customers. Our customers consistently experience high quality service when interacting with our company and our employees.*

*Our customers are the driving force behind everything we do. Service delivery is effectively leveraged in all areas of our company to drive repeat business and intent to recommend. Our company continuously looks for opportunities to develop relationships with new customers and associates.*

*We operate as an entrepreneurial organization with a minimum of bureaucracy and a never ending focus on productivity. We think and act with a sense of urgency. Our company supports a continuous improvement mind-set. Leaders in our company inspire a creative culture. All our employees are consistently involved in decisions affecting their work. Changes in our company are managed successfully at all levels. Leaders in our company are held accountable for their behaviours.*

**NOR-AG** supplies industry-proven products, inventory of replacement parts, service support, industry-leading systems design solutions, planning and permits, design-build construction and project management services.
